

GLY-COOL™ ADVANTAGE LIGHT DUTY/HEAVY DUTY

PRODUCT DATA SHEET

GLY-COOL™ LD/HD HOAT EXTENDED LIFE COOLANT

Gly-Cool™ LD/HD HOAT Extended Life Coolant is a "global" hybrid antifreeze. This Hybrid Organic Acid Technology (HOAT) is formulated with Nitrite for Heavy-Duty applications. This Coolant provides maximum protection against damaging rust and corrosion in auto and truck cooling systems, including American, Asian and European vehicles. This Coolant is formulated to be phosphate-free, low silicate and does not contain 2-Ethyhexanoic Acid (2EH). Gly-Cool™ LD/HD HOAT coolant is easy to use, precision blended to 50/50 and meets the requirements of non-phosphated American, Asian and European OEM's.

FEATURES

- Hybrid Organic Acid Technology (HOAT)
- Fully Formulated / Pre-Charged with Nitrites
- Provides maximum protection against rust and corrosion
- Phosphate Free and does not contain 2EH Acid
- Easy to use, precision blended to 50/50

INDUSTRY STANDARDS

ASTM D-3306, ASTM D-4985, ASTM D-6210
TMC RP-329, TMC RP-330
BS6580 (Bristish Standard)

This heavy-duty/light-duty anti-freeze/coolant is compatible with gas or diesel engines.

TYPICAL PROPERTIES	
Color	Yellow
Density @ 68°F	1.292 g/ml
Approx. Pounds per Gallon	10.8
Approx. PH (premix)	10.3
Freeze Point, °F	-34 min.
Boiling Point, °F	265 min.

RECOMMENDED APPLICATIONS

Caterpillar (DEAC)
Chrysler MS 7170
Cummins

Detroit Diesel
Ford WSS-M97B51-A1
JIS K 2234

John Deere H-5
John Deere H24B1
John Deere H24C1

SAE J1034
SAE J1941
